Farah Batool

BSCS Graduate | Data Analytics & Python Enthusiast | SQL • Excel • ML | @Intern at CodeAlpha & SyntecxHub | Open to Opportunities in Lahore

Lahore, Punjab, Pakistan

Summary

BSCS Graduate from Lahore College for Women University, transitioning into Data Analytics. My degree gave me a foundation in Python, statistics, and machine learning. Now I'm building the practical, hands-on skills that data work actually requires. Currently focused on: → Excel — data cleaning, Pivot Tables, dashboards → SQL — in progress → Python for data analysis (Pandas, Matplotlib) I learn fast, I take real work seriously, and I'm not here to fake skills I don't have yet. Open to Data Analyst internships — Lahore, on-site or hybrid.

Experience

Syntecxhub

Intern

May 2026 - Present (1 month)

CodeAlpha

Intern

May 2026 - Present (1 month)

Education

Lahore College for Women University

Bachelor of Science - BS, Computer Science · (November 2021 - November 2025)

Superior College

ICS (physics) · (June 2019 - June 2021)
